- A special **E.T. Accentronix receiver** can be connected to any Cellswitch Infinity that enables you to have full control over your remotes.
- Features include logging, time-restricted access, adding and deleting remotes.
- Any E.T. Blue remote can be programmed.
- Any Cellswitch Infinity with a special **E.T. Accentronix receiver** can be used as a Gateway to program remotes to any other site. i.e. you do NOT have to be on site to program remotes.
- The **E.T. Accentronix receiver** can only be connected to the Data input of a Cellswitch Infinity.
- To link remotes to a GSM Intercom you still need to use an Infinity with an **E.T. Accentronix receiver** and then link the Infinity to the Intercom in the Access Control section on the website.
- Remotes can only be managed while the Cellswitch has an active annual subscription.

System compatible with either the
Nano Single Sim-card - 10 User Capacity or the
Infinity Dual Sim-card - 10 000 User Capacity

Accentronix Cellswitch (Nano and Infinity)
